Project Office:**Email:****Website:****Project Description:**

The project is designed to improve psychosocial health for vulnerable youth and children affected by the Intifada through three components, provision of counseling services in two sites of the West Bank with the Palestinian counseling center, capacity building and direct service provision of psychosocial services in refugee camps in partnership with UNRWA and capacity building of Ministry of Social Affairs and Ministry of Education employed counselors.

Objectives:

1. Direct Service provision of counseling services
2. Capacity building of psychosocial response system
3. Awareness and outreach in selected locations

Locations:

West Bank – Nablus & Tulkarem, Refugee Camps

Products (as of end – May 2006):

- Nablus Counseling Center established
- Ministry of Social Affairs & Ministry of Education counselors trained on recreational therapy
- Psychosocial programmes running in refugee camps in UNRWA centers

Outputs:

- Ministry of Education and Social Affairs personnel better trained in psychosocial service provision
- Counseling provision expanded to youth in Nablus and Tulkarem cities.
- (2) Awareness raising in 19 refugee camps
