Project Description:

The main objective of the project would be to enhance the capacity of the Joint Council and member Local Government Units in order to better respond to the development needs of local communities. Furthermore, the project would try to increase the capacity of local Civil Society Organizations and citizens to participate effectively in the planning process. Finally, the project would attempt to establish a Counterpart Community Development Fund (CCDF) to support the implementation of high priority projects identified in the participatory planning process.

Objectives:

1. The overall anticipated output of the PRDPP is enhanced and promoted participatory local democratic governance in the target rural area through strengthening the capacity of local-level organizations and authorities, and the governorate, in undertaking participatory planning.

Locations:

Jenin Area

Outputs:

- Capacity of the joint council/s (JC/s) and its member LGUs, and the Governorate in participatory planning is enhanced.
- Capacity of local civil society organizations (CSOs) and citizens to participate effectively in the local planning processes is empowered and built.
- A counterpart Community Development Fund (CDF) is established
