Project Description:

This project is intended to consolidate prior support provided by the South Korean Government to the Palestinian Authority in the education sector and further contribute to enabling MOE achieve the priority objectives of the Five Year Education Development Plan 2000-2001.

Beneficiaries : The primary beneficiaries of the project are the ministry of Education and higher Education and the educational sector in WBGS.

Direct beneficiaries include:

- 450 Students attending the school included in this project who will be provided with safer and better equipped educational facilities. Also the quality of teaching in the newly constructed and expanded schools will be significantly enhanced through less crowded classrooms and a more pleasant learning environment
- Students of 74 schools equipped with computer lab,
- Teachers benefiting from an improved working environment.
- 338450 students in 645 schools receive nutritional supplements

Indirect beneficiaries

1. Students' parents of Burqin that prefer to keep their children, especially girls, within town and village boundaries and will be happy to see their children educated in a proper school environment.
2. The families of the unemployed workers who will have their living sustained due to the income, although minimal, to be generated by their household heads employed in the construction of the school
3. The Palestinian public institutions working in the field of education together with the various municipalities and village councils.

Objectives:

1. Provide access to education for all
2. Improve the quality of Education

Locations:

West Bank and Gaza

Products:

- 1 School Constructed
- 74 computer labs equipped
- 27 million vitamin tablet provided

Outputs:

- Construction of Burqin school with additional 12 classrooms
- Furniture and equipment for the school
