Project Description:

The Project consists of maintaining and rehabilitating 134 apartments in 7 multi-story buildings located in Khan Younis. The buildings are partially damaged and need internal and external maintenance and rehabilitation.

Objectives:

1. To maintain and rehabilitate all the damages in the 134 apartments through two phases:
2. Phase one will focus on rehabilitating the internal damages of the apartments.
3. Phase two will focus on rehabilitating and renovating the common services and external damages of the apartments.

Locations:

Khan Younis city

Products (as of end – May 2006):

- Tendering process for the first phase has been opened on 28/05/2006.
- The UNDP staff members in cooperation with the Governorate of Khan Younis and the Ministry of Public Works and Housing have undertaken assessment of the damages, measurement of required works, preparation of BOQ's and detailed drawings, technical specifications and the all related tendering documents.

Outputs:

- 134 apartments will be rehabilitated
- Common general services and external infrastructure will be renovated and rehabilitated.
