THEMATIC AREA
Poverty Reduction

SECTOR / SUB SECTOR
Health

PROJECT AIM (OVERALL OBJECTIVE)
The project aims to support the Palestinian Ministry of Health efforts to provide quality health services to the Palestinian population.

PROJECT DESCRIPTION
The project specifically aims at increasing access to quality hospital treatment and care for the population of Hebron District (pop. 542,593) while contributing towards the overall development and improvement of hospital facilities in the West Bank.

OBJECTIVES
- The long-term objective of the project will be to improve the level of advanced medical services and hospitalization conditions at Hebron District by expanding access of residents of Hebron District to a modernized district hospital.

IMPACT STATEMENT
- Increased bed capacity from 147 to 182.
- Enlarged by a total of 6,940 square meters.
- Enhanced managerial and administrative skills of key hospital personnel through technical assistance in cooperation with Italian consultants and the Palestinian Polytechnic University in Hebron.

PROGRESS UP TO DATE
- Phase I (first and second floors) was completed in December 2004
- Phase II (third floor) involving rehabilitation works and construction of the remaining second floor will be completed by end March 2011
