

Programme of Assistance to the Palestinian People

Project Fact Sheet

Emergency Small Scale Infrastructure Projects in the West Bank

PROJECT AIM (OVERALL OBJECTIVE)

The project aims at assisting the communities living in dire socio-economical situations resulting from the Israeli-imposed Closures and mobility limitations in the Governorates mostly hit and affected in the West Bank.

PROJECT DESCRIPTION

The project aims at improving social and municipal services in impoverished Palestinian communities through the rehabilitation and reconstruction of essential physical infrastructure, particularly water and sewage networks, roads, electricity networks, as well as small scale municipal works. Additionally, the project targets a number of sectors with potential to absorb high numbers of labourers, prioritising the interventions in accordance with the following considerations: the sustainability of the activities selected; existing constraints presently impeding the work and production cycle in many sectors; various available implementation mechanisms to ensure the highest absorption capacity, and distribution of works to reach the most hardly hit areas during the last period.

OBJECTIVES

- To restore damaged infrastructure in the target areas.
- To ensure access of population on both sides of the Wall to basic health and educational services.
- To upgrade the basic municipal infrastructure and improve the provision of municipal services in the targeted areas.

IMPACT STATEMENT

On the output/ indicator level, this project is intended to help fill this gap in the targeted localities through the rehabilitation and upgrading of damaged and deteriorated municipal and social infrastructure services in more than 42 towns and villages in the WB.

THEMATIC AREA

Poverty Reduction and Energy and Environment

SECTOR / SUB SECTOR

Water Resources, Planning and Development, Urban Development, Educational Facilities and technology, Employment Generation

PROJECT DETAILS

Project Number	00035002
Award Number	00035002
Duration	3 years
Donor	Al Aqsa Fund through the Islamic Development Bank
Partner	Ministry of Local Government and Local Councils

BUDGET

Total Budget	US\$4,000,000
Disbursement up to date	US\$3,800,000

Geographic Location

Governorates of Jenin, Tulkarem, Qalqilia, Ramallah and Jerusalem

OUTPUTS

- Rehabilitation of water supply and distribution systems
- Developing and maintenance of sewage collection and storm water drainage systems

Programme of Assistance to the Palestinian People

Project Fact Sheet

PROGRESS UP TO DATE

- All activities except two

- Asphalt paving and rehabilitation of access and internal roads
